mutamayizat alkhadra school

Bachelor of Biomedical Engineering  
in University Of Technology  
2023

## Skills

- Microsoft Office (Word, Excel , power point
- Arduino
- AutoCAD
- MATLAB
- Visual Basic
- App Design
- Communication
- Medical Devices Maintenance

## About Me

I work as a volunteer on a platform called "Injah," and I love developing myself and working to build my experiences. All of my previous work has been volunteer work for TLTD and Wamen's Leadership Institute. I have experience in various fields, including marketing, programming, web design, and the field of medical devices. My most important achievement is my graduation project, a prosthetic hand that moves with a sensor. He received many awards, including first place from the American Emirati University in the engineering field.
